Ayman Bassam Ismail

Full Stack Developer (React & PHP Laravel)

Gaza, Palestine | **Email:** ayman.ismail.dev@gmail.com |**Phone:** +972598895851
GitHub: github.com/ReBestX | **LinkedIn:** linkedin.com/in/aymanbismail

PROFESSIONAL SUMMARY

Result-driven Full Stack Developer who has specialized mainly in React, Next.js, PHP, and Laravel. I possess the ability to create and design scalable web applications from the very beginning point to the end that will have great RESTful API designs and very efficient database structures. I'm really interested in building first-class and high-performing applications that deliver more so to the end user at less cost in terms of energy and time resources consumed. Proven ability to collaborate effectively in distributed teams and remote production environments

WORK EXPERIENCE

Shifra Training and Development Center   **Nov. 2025 – Present**
Backend Developer Intern   *Remote*

- Applied expertise in developing scalable backend solutions using PHP and Laravel, strictly following MVC patterns.
- Created and implemented REST APIs with robust routing, middleware, and comprehensive error handling.
- Supervised database schemas for MySQL databases, optimized queries for improved execution time, and transferred databases through the use of seeders.
- Authentication and Role-Based Access Control (RBAC) systems with security measures were set up.
- Managed the implementation of the User Interface and also handled the version control of the project using Git and GitHub.
- My tech stack includes PHP, Laravel, MySQL, REST APIs, MVC, and authentication.

Gaza Sky Geeks   **Jun. 2025 – Present**
Junior Frontend Developer   *Remote*

- Designed responsive UI components with React.js and JavaScript, focusing on browser compatibility.
- Integrated RESTful APIs and application state using Redux and Zustand.
- Contributed to code reviews, pair programming, and collaborative technical challenges.
- Applied Clean Code rules and developed component designs to be reusable.

Gaza Sky Geeks   **Apr. 2025 – Aug. 2025**
Trainee – Programming & Algorithms   *Remote*

- Mastered algorithms, data structures, and computational logic.
- Implement pseudocode and flowcharts aimed at optimizing algorithmic solutions and logical processes.
- Participated in methods of systematic solving and debugging.
- Applying Clean Code principles for modularity and maintainability of code.
- Skills: Advanced algorithmic logic, systematic problem-solving, code refactoring, structural debugging, and transforming complex requirements into maintainable source code.

Oyoun Media   **Jun. 2023 – Oct. 2023**
Backend Developer Intern   *Remote*

- Practical development experience gained in working with Laravel, PHP, MySQL, and APIs.
- Maintained backend functionality in a production environment.
- Resolved bugs, enhanced functionality in current features, and integrated internal APIs.
- Used GitHub for version control.
- Stack: PHP, Laravel, MySQL, API Integration.

PROJECTS

- **Select AI – Next.js Platform**
  A web application for discovering AI tools and their use cases.
  GitHub: https://github.com/ReBestX/SelectAi
  Current Features:
    - Next.js 15 + React 19 architecture with server components.
    - Smart search interface for AI tools.
    - Fully responsive UI using modern frontend patterns.
    - Admin dashboard with role-based access.
    - Laravel backend for authentication and data storage.
    - API integration to fetch and categorize AI tools.
    - Documentation pages for each AI tool.
  Tech Stack: Next.js, React, TypeScript, Tailwind CSS, Prisma, Zustand.

- **Nexus – Social Media Platform**
  A full social platform built with custom authentication, user profiles, admin controls, and CRUD operations.
  GitHub: https://github.com/ReBestX/Nexus
  Core Implementations
    - Implemented secure login, registration, and session management.
    - Designed MySQL database schema and optimized queries.
    - Built all UI screens using HTML, Tailwind CSS, and JavaScript.
    - Developed backend logic with PHP, Laravel-style architecture, and AJAX requests.
  Tech Stack: PHP, MySQL, AJAX, Tailwind, JavaScript.

- **Java OOP Platform – Desktop Application**
  GitHub: https://github.com/ReBestX/Java-2-Project
  A console-based store management system built with Java and OOP principles.
  Key Implementations:
    - Delivered customer, item, and shopping cart modules using modular class design.
    - Executed input validation, exception handling, and menu-driven workflows.
    - Applied core OOP concepts including abstraction, encapsulation, and constructors.
  Tech Stack: Java, OOP, Data Structures, Console UI.

VOLUNTEERING EXPERIENCE

Content Creator   **Apr 2025 – Present**
TechAura (AI & Coding)   *Remote*
- Co-founded a technical education initiative focused on AI tools, programming, and software skills.
- Produced and shared structured, high-value educational content to support learners in tech fields.
- Contributed to building an online community centered around coding, artificial intelligence, and digital tools.

Instructor   **2020**
Al Taqwa High School (Science & Technology Department)   *Gaza, Palestine*
- Conducted training sessions on Visual Basic, PHP, SQL, and Advanced JavaScript.
- Led students through practical exercises and actual programming problems.
- Improved skills in leadership, communication, and group management through coordinating and engaging students in discussion.

EDUCATION

B.Sc. in Software Engineering   **2021 - 2026**
University of Palestine   PS-Gaza
- **GPA: 3.5/4.0**

High School Diploma – Scientific Stream   **2021**

Altaqwa Secondary Boys School   PS-Gaza

- **High School Average: 92.7%**

CERTIFICATIONS

- **Fundamentals and Data Structures and Algorithms – [Gaza Sky Geeks](#)**   **Aug 2025**
- **The Ultimate React Course 2025: React, Next.js, Redux & More – [Udemy](#)**   **Jul 2025**
- **PHP for Beginners - Become a PHP Master - CMS Project – [Udemy](#)**   **Jul 2023**
- **Git and GitHub – [Almdrasa](#)**   **May 2023**

SKILLS

- **Frontend:** React.js, Next.js, JavaScript, TypeScript, Tailwind CSS, Bootstrap, Redux, Zustand, Responsive Design.
- **Backend Development**: PHP, Laravel, Node.js, RESTful API Development, Authentication & Authorization, MVC Architecture, Middleware, Error Handling.
- **Databases & Tools:** MySQL, Prisma, Supabase, PhpMyAdmin, Git, GitHub, API Documentation.
- **Software Development:** OOP, Clean Code Practices, Debugging & Optimization, Algorithmic Thinking, Version Control.

SOFT SKILLS

Problem Solving, Analytical Thinking, Communication, Teamwork, Time Management, Research Skills, Remote Collaboration, Leadership Potential.

LANGUAGES

Arabic (Native proficiency), English (Full professional proficiency)
