Ayman Bassam Ismail

Full Stack Developer | React • Laravel

Gaza, Palestine | **Email:** ayman.ismail.dev@gmail.com | **Phone:** +972598895851
Portfolio: AymanIsmail.me | **GitHub:** github.com/aymanbismail | **LinkedIn:** linkedin.com/in/aymanbismail

PROFESSIONAL SUMMARY

Result-driven Full Stack Developer with strong experience in React, Next.js, PHP, and Laravel, focused on building scalable web applications across frontend and backend layers. Skilled in RESTful API development, database design, and writing clean, optimized code. Experienced in remote collaboration and delivering high-performance web applications.

WORK EXPERIENCE

Stand4Gaza   **Jan. 2025 – Present**
Full Stack Developer   *Remote*

- Contributed to the main development of the project across both frontend and backend layers.
- Implemented frontend features using React and Next.js while creating RESTful APIs with Laravel.
- Enabled multilingual (EN/AR) support with full RTL handling across the application.
- Structured core application architecture and data flow to support scalability and long-term maintainability.
- Collaborated with contributors when required and handled integration and final delivery.

Gaza Sky Geeks   **Jan. 2025 – Present**
Advanced React Developer – Bootcamp Trainee   *Remote*

- Participated in an advanced React bootcamp focused on building scalable, production-ready web applications.
- Applied expertise in advanced React patterns like Compound Components, Render Props, and Custom Hooks.
- Implemented state management and optimized performance according to modern React techniques.
- Integrated RESTful APIs and real-world data flows into React applications.
- Followed the best practices for component architecture and clean code.
- Worked on projects applying agile methodologies.

Shifra Training and Development Center   **Nov. 2025 – Present**
Backend Developer Intern   *Remote*

- Built scalable backend modules in PHP with Laravel based on MVC architecture.
- Developed RESTful APIs with routing, middleware, and centralized error handling.
- Designed and optimized database schemas for MySQL to ensure efficient query execution and consistency in data.
- Implemented authentication and role-based access control (RBAC) systems.
- Used Git and GitHub for version control and team collaboration.

Gaza Sky Geeks   **Jun. 2025 – Present**
Junior Frontend Developer   *Remote*

- Developed responsive UI components using React.js with cross-browser compatibility.
- Integrated RESTful APIs and managed application state using Redux and Zustand.
- Participated in code reviews, pair programming, and collaborative problem-solving.
- Applied Clean Code principles to frontend components.

Gaza Sky Geeks   **Apr. 2025 – Aug. 2025**
Trainee – Programming & Algorithms   *Remote*

- Practiced algorithmic problem-solving using data structures and computational logic.
- Implemented pseudocode and flowcharts to optimize logical solutions.
- Applied systematic debugging and refactoring techniques.
- Strengthened Clean Code practices for modular and maintainable implementations.

Oyoun Media   **Jun. 2023 – Oct. 2023**
Backend Developer Intern   *Remote*
- Maintained backend features using PHP, Laravel, and MySQL in a production environment.
- Fixed bugs, enhanced existing features, and integrated internal APIs.
- Used GitHub for version control and collaborative development.

PROJECTS

- **Select AI – Next.js Platform**
  A web application for discovering AI tools and their use cases.
  GitHub: github.com/ReBestX/SelectAi
  Core Implementations:
    - Built a platform for discovering and categorizing AI tools.
    - Implemented smart search and categorized tool listings.
    - Developed an admin dashboard with role-based access.
    - Integrated Laravel backend for authentication and data storage.
  Tech Stack: Next.js, React, TypeScript, Tailwind CSS, Prisma, Zustand.

- **Stand4Gaza Platform – Full Stack Prototype**
  Full-Stack prototype platform connecting Palestinian professionals with global employers, featuring bilingual (EN/AR) support and RTL/LTR layout handling.
  GitHub: github.com/ReBestX/Stand4Gaza-Prototype
  Core Implementations:
    - Built a full-stack prototype using React, TypeScript, and Express.js.
    - Implemented bilingual (EN/AR) support with automatic RTL/LTR switching.
    - Designed reusable UI components with Radix UI and shadcn/ui.
    - Integrated PostgreSQL with Drizzle ORM and session-based authentication.
  Tech Stack: React, TypeScript, Vite, Tailwind CSS, Express.js, PostgreSQL, Drizzle ORM

- **Nexus – Social Media Platform**
  A full social platform built with custom authentication, user profiles, admin controls, and CRUD operations.
  GitHub: github.com/ReBestX/Nexus
  Core Implementations:
    - Implemented secure login, registration, and session management.
    - Designed MySQL database schema and optimized queries.
    - Built all UI screens using HTML, Tailwind CSS, and JavaScript.
    - Developed backend logic with PHP, Laravel-style architecture, and AJAX requests.
  Tech Stack: PHP, MySQL, AJAX, Tailwind, JavaScript.

- **Java OOP Platform – Desktop Application**
  GitHub: github.com/ReBestX/Java-2-Project
  A console-based store management system built with Java and OOP principles.
  Core Implementations:
    - Delivered customer, item, and shopping cart modules using modular class design.
    - Executed input validation, exception handling, and menu-driven workflows.
    - Applied core OOP concepts including abstraction, encapsulation, and constructors.
  Tech Stack: Java, OOP, Data Structures, Console UI.

VOLUNTEERING EXPERIENCE

Content Creator   **Apr. 2025 – Dec. 2025**
TechAura (AI & Coding)   *Remote*
- Co-founded a technical education initiative focused on AI tools, programming, and software skills.
- Produced and shared structured, high-value educational content to support learners in tech fields.
- Contributed to building an online community centered around coding, artificial intelligence, and digital tools.

Instructor   **2020**
Al Taqwa High School (Science & Technology Department)   *Gaza, Palestine*
- Conducted training sessions on Visual Basic, PHP, SQL, and Advanced JavaScript.
- Led students through practical exercises and actual programming problems.
- Improved skills in leadership, communication, and group management through coordinating and engaging students in discussion.

EDUCATION

B.Sc. in Software Engineering   **2021 - 2026**
University of Palestine   PS-Gaza
- **GPA: 3.5/4.0**

High School Diploma – Scientific Stream   **2021**
Altaqwa Secondary Boys School   PS-Gaza
- **High School Average: 92.7%**

CERTIFICATIONS

- **Gemini Certified Educator – [Google for Education](#)**   **Dec 2025**
- **Google Certified Educator Level 1 – [Google for Education](#)**   **Dec 2025**
- **LinkedIn Premium Quick Tips – [LinkedIn](#)**   **Dec 2025**
- **Fundamentals and Data Structures and Algorithms – [Gaza Sky Geeks](#)**   **Aug 2025**
- **The Ultimate React Course 2025: React, Next.js, Redux & More – [Udemy](#)** **Jul 2025**
- **Introduction to Cybersecurity – [Cisco](#)**   **Dec 2024**
- **PHP for Beginners Become a PHP Master - CMS Project – [Udemy](#)**   **Jul 2023**
- **Git and GitHub – [Almdrasa](#)**   **May 2023**

SKILLS

- Frontend: React.js, Next.js, JavaScript, TypeScript, Tailwind CSS, Redux, Zustand, Responsive Design.
- Backend: PHP, Laravel, RESTful APIs, Authentication & Authorization, MVC, Middleware.
- Databases & Tools: MySQL, Prisma, Supabase, Git, GitHub.
- Software Practices: OOP, Clean Code, Debugging, Optimization, Algorithmic Thinking.

SOFT SKILLS

Problem Solving, Analytical Thinking, Communication, Teamwork, Time Management, Research Skills, Remote Collaboration, Leadership Potential.

LANGUAGES

Arabic (Native proficiency), English (Full professional proficiency)
